

Noa Obringer

Full Stack Web Developer

noa.obringer@gmail.com • github.com/17Sx • 17sx.me • LinkedIn • Paris Area, France

PROFILE

Apprentice Full Stack Web Developer specializing in the JavaScript / TypeScript ecosystem (React, Next.js, Node.js). I design and deliver end-to-end web products, from architecture to production (CI/CD deployment on Linux servers). Founder of a SaaS platform (Altiora) and a web agency (Klixs).

EXPERIENCE

Full Stack Developer — Apprenticeship

PMP (Palm Managing Project) — Paris

2024 – Present • Software publisher, pharmaceutical sector

- Migrated an internal application from Java to Next.js (architectural redesign and modern UI overhaul).
- Developed an electronic signature platform using Domain-Driven Design (DDD), secured via JWT and OWASP best practices.
- Built an AI-based detection module (bounding boxes) and automated CSV/PDF export features.
- Successfully shipped production-ready applications used by active clients; worked in an Agile (Scrum) environment, conducting code reviews and CI/CD deployments (GitHub Actions).

Founder & Developer — Altiora

SaaS • altiora.pro

2024 – Present • Entrepreneurial project

- All-in-one platform for traders featuring a trading journal, automated statistics, habits, goals, and deep work tracking.
- Handled end-to-end conception: system architecture, UI/UX, full-stack development (Next.js, TypeScript, Tailwind, PostgreSQL), and deployment.
- Built a dedicated back-end API (Bun) integrated with MetaAPI for automated transaction journaling. Currently in beta with 50+ active users.

Founder — Klixs

Web Agency

2024 – Present • Entrepreneurial project

- Built high-performance websites for freelancers and SMBs, with advanced SEO and GEO (Generative Engine Optimization) to maximize AI-search visibility.

EDUCATION

Bachelor in Digital Coding & Innovation — 3rd Year

IIM — Institute of Internet and Multimedia, Nanterre

In progress • Web Dev, UX/UI, Project Management, OOP

French General Baccalaureate (High School Diploma)

Lycée Paul Langevin — Beauvais

2020 – 2023 • Specialization in Engineering Sciences & Mathematics

PROJECTS

GHOSTNET

Real-time multi-room chat over TCP sockets featuring end-to-end encryption (PBKDF2 / HMAC), moderation tools, and a GUI client.

Python

github.com/17Sx/ghostnet_socket

BKM-Poker

Web application dedicated to poker tools and statistics.

Next.js, TypeScript

live • code

ATA

Back-end API service built for automated logging and journaling of trading transactions.

Bun, TypeScript

github.com/altioraPro/ata

SKILLS

Front-end

TypeScript JavaScript React

Next.js Tailwind SCSS

Back-end

Node.js Bun PHP Python

REST API

Databases & ORMs

PostgreSQL MySQL Prisma

Drizzle

DevOps & Tools

Linux Docker GitHub Actions

Git Vercel WordPress
