

Noa Obringer

Full Stack Web Developer

noa.obringer@gmail.com • github.com/17Sx • 17sx.me • LinkedIn • France (95)

PROFILE

Full stack web developer working in an apprenticeship, specializing in the JavaScript / TypeScript ecosystem (React, Next.js, Node.js). I build and deliver end-to-end web products, from architecture design to production (CI/CD deployment on Linux servers). Founder of a SaaS (Altiora) and a web agency (Klixs).

EXPERIENCE

Full Stack Developer — Apprenticeship

PMP (Palm Managing Project) — Paris

2024 – Present • Software publisher, pharmaceutical industry

- Migrated an internal application from Java to Next.js (architecture redesign and interface modernization).
- Developed an electronic signature platform based on DDD architecture, secured via JWT and OWASP best practices.
- Built an AI detection module (*bounding box*) and CSV / PDF export features.
- Delivered production-ready applications used by clients; worked in an Agile team (Scrum), handled code reviews and CI/CD pipelines (GitHub Actions).

Founder & Developer — Altiora

SaaS • altiora.pro

2024 – Present • Entrepreneurial project

- All-in-one platform for traders: trading journal, automated statistics, habit tracking, goals, and deep work logs.
- Full-cycle product development: architecture, UI/UX, full-stack dev (Next.js, TypeScript, Tailwind, PostgreSQL), and deployment.
- Dedicated back-end API (Bun) with MetaAPI integration for auto-journaling. Currently in beta with over 50 active users.

Founder — Klixs

Web agency

2024 – Present • Entrepreneurial project

- Building websites for freelancers and small businesses, with an emphasis on SEO and GEO optimization (visibility in generative search engines).

EDUCATION

Bachelor in Digital Coding & Innovation — 3rd year

IIM — Institut de l’Internet et du Multimédia, Nanterre

In progress • Web Dev, UX/UI, Project Management, OOP

High School Diploma (Baccalauréat Général)

Lycée Paul Langevin — Beauvais

2020 – 2023 • Majored in Engineering Sciences & Mathematics

PROJECTS

GHOSTNET

Real-time multi-room chat over TCP socket, end-to-end encryption (PBKDF2 / HMAC), moderation system, and GUI client.

Python

github.com/17Sx/ghostnet_socket

BKM-Poker

Web application centered around poker.

Next.js, TypeScript

live • code

ATA

Altiora Trading API backend service built for automated trade journaling.

Bun, TypeScript

github.com/altioraPro/ata

Donate-Me

Online tipping and donation platform.

Next.js, TypeScript

live • code

SKILLS

Front-end

TypeScript

JavaScript

React

Next.js

Tailwind

SCSS

Back-end

Node.js

Bun
